

REAL OPTIC

2.5mm & 1.25mm One-click Ferrule Mate Cleaner

Description

Grandway provides high quality One-click Ferrule Mate Cleaner for ϕ 2.5mm & ϕ 1.25mm optical ferrule. As a high precision components, even a little contaminants on the optical ferrule can affect the performance of the whole optical transmission system. If an optical ferrule is polluted, it is hard to make it clean again in ordinary ways for the high requirements of the cleaning equipment and the little space the ferrule left for cleaning. With the One-click Ferrule Mate Cleaner, all the problems can be solved easily. The cleaner is composed with special cleaning reel, extendable nuzzle and guide cap of specified size. These make the cleaner meet rigorous requirements of the cleaning solution. The One-click Ferrule Mate Cleaner is absolutely your good partner in optical cleaning solution.

Features

- Suitable for optical connector or port with ϕ 2.5mm/ ϕ 1.25mm ferrule, such as SC, FC, ST and etc.
- One click cleaning system, easy, fast and high efficiency
- More than 800 cleaning cycles
- Effective with variety of contaminants Composed with dust cap and guide cap for unmated ferrules
- Complied with EU/95/2002/EC Directive(RoHS)

Specification

ϕ 2.5mm one-click ferrule mate cleaner

Dimension (mm)	80*13*13(standard)/115*13*13(nozzle extended)
Weight (kg)	0.1
Connector type	All ϕ 2.5mm connectors , such as SC, FC, ST
Cleaning cycles	800 cycles

ϕ 1.25mm one-click ferrule mate cleaner

Dimension (mm)	80*13*13(standard)/115*13*13(nozzle extended)
Weight (kg)	0.1
Connector type	All ϕ 1.25mm connectors , such as LC, MU, E2000
Cleaning cycles	500 cycles

Part Number	Description
FOC-2.5	ϕ 2.5mm One-click Ferrule Mate Cleaner

Part Number	Description
FOC-1.25	ϕ 1.25mm One-click Ferrule Mate Cleaner
